

txtinforequest: hello

16/2008

30 approx

I was in my garden smoking a fag,,, Im not allowed to smoke in the house,,, and looking at the sky,,, there was some cloud cover just like a high fog. Although this was not dense. I could see 2 stars, whilst i was looking at the 2 stars that i could see, a white with a tint of orange light came into view over the top of my neighbours house it was traveling in a westerly but slightly south direction at a medium speed, but faster than the jets that come over my house from gatwick airport. This star ! light ! UFO ! travelled in a perfectly straight line at the same altitude as the cloud cover maybe a little higher, there was no sound at all completely silent. I watched it for as long as i could untill it dissapeared into the the cloud, and i could no longer see it. I was then thinking to myself what the heck was that !! I had no explanation. I then was looking at the 2 stars that I was origionally looking at... but at that moment the star that was the lowest (or the furthes!

t)away from me, suddenly started moving in the same direction allthough it was not taking the same path it was heading to the same point as the 1st (light, star, UFO,) this one was travelling at a much slower speed. I also watched this one untill i could see it no more at the same point as the first, This one also made no sound and was at about the same altitude if not maybe a little higher than the 1st.... Then I didnt know what to do !!! I know what i saw,, so i tried to contact ATC gatwick they gave me a phone number that is now not in use,,,, I then phoned sussex police and told them what i had seen thay gave me a reference number :1907/1/6/2008 they then gave me the MOD UFO sighting number witch then took me to a awnsering machine and i left a message. I had had no reply I know that 4 at least 4 other people saw these stars UFO's lights in worthing because they called the local radio station (splash FM)....

I would love to hear some feedback from this.

I know that we are not alone, the universe is to varst to even think that we are... If I can be a help or a use to you please do not hesitate to contact me,,, trust me i will not be alarmed... look forward to hearing from you.

many thanks
