Section 40
One for you through the FOI. Shawbury will have no details as it happened over Birmingham and made the local press. It will have to go direct to MOD. Would you like me to send them a holding e-mail or will you do it.

Subject: 2nd May 2008 UFO & Police Helicopter
Importance: High

With regards to the the Airprox incident report 055/08 which involved a West Midlands Police helicopter and an unidentified flying object on 2nd May 2008 which shows a very extensive investigation which took place.

We are investigating this incident further as we have 2 additional Police Officers who experienced an object of a similar nature which had blue lights on the previous night 1st May.

We also have acquired photographs from an officer which we are trying to confirm is of that particular night. Firstly this incident happened on the 2nd May and involved an object with blue/green lights and was witnessed by a Police helicopter.

We are looking for further assistance and a Freedom of Information request on any details relating to this particular event. We are also seeking permission to use details from the Airprox report to further assist us and build part of our final report.

Please feel free to contact me with any issues or information

Thank you for your time

Regards
